- If someone has a project like a lake front restoration at their home, a wood lot that needs to be cleaned up or invasives removed, a trail constructed, a boardwalk or hunting blind constructed, or they are on the board of a nonprofit, a conservancy, have political connections and can help us get an introduction for a possible project somewhere or for someone that our program can be hired by, that would be great.
- We are looking for business owners in need of employees that might hire young people from our program. I want to bring kids to them (or them to the business) to learn about the job and about our program
- We want to hold a couple of small job fairs for our members each year, so I need businesses interested in participating
- Volunteers interested in working on a project with us and mentoring the youth - particularly women to increase the number of young women candidates, which would be amazing.
